

RE: JUNIOR DESIGNER

Posted: Tuesday, February 13, 2020

Linden, Brown Architecture is a collective of critical thinkers and makers based in Portland, Oregon. We collaborate with clients of vision, leading projects that express a deep connection to honest materials, dynamic spaces and inspirations of landscape.

We engage in the design of buildings as an act of exploration, discovering new insights and experiences in each project. Our work is informed deeply by place, respecting the roots of land, heritage, purpose and craft. It is driven by commitments to design excellence and collaboration—with clients, builders, artists and engineers, to find inspired spaces and a richness of lived experience, connecting the scale of the site to the scale of the hand.

We are designers as makers and share a deep respect for the traditions of craft. Our work is enriched by allowing the tools and materials we use to inform every detail. Our studio is the laboratory for this exploration and a forum to discover the possibilities in every design.

L,BA was founded by Brent Linden and Chris Brown in 2018, bringing together more than 35 years of collective effort in the pursuit of architecture, with significant project experience working with cultural, creative, corporate and residential clients. Notable examples include the designs for Sequitur Winery and Farm in Newberg, Oregon, the Clyfford Still Museum in Denver Colorado, the US Embassy in Maputo, Mozambique, the National Veterans Memorial and Museum in Columbus, Ohio, the Benton County Historical Society Museum in Corvallis, Oregon and the Sokol Blosser Winery Tasting Room in Dundee, Oregon. Specialists in both the design and implementation of significant architecture, we bring the creative and organizational expertise necessary to implement each project's shared vision.

L,BA is seeking an exceptional Junior Designer for immediate employment in a demanding and collaborative work environment. Considered applicants must have:

- BArch or MArch degree from an accredited university
- 0-3 years of professional work experience
- A wandering and critical design mind, with interests in dynamic spaces, connections to landscape, material qualities, craft and construction details
- Exceptional design abilities represented with iterative models, diagrams, and architectural drawings
- Ability to execute exceptional presentation deliverables
- Familiarity working with various tools and medium including but not limited to: physical model building, 2D and 3D drawing and modeling (Vectorworks, Rhino, etc), rendering (Photoshop, Maxwell, Enscape, etc), and generating presentations (Adobe Creative Suite), etc.
- Residential design experience is a plus

Other details:

- Position available immediately following interview and selection process
- Competitive salary, medical and PTO benefits provided
- Please Submit a cover letter, detailed resume, work samples, and references to [info@lindenbrownarchitecture.com](mailto:info@lindenbrownarchitecture.com) and include "Junior Designer" in the email subject line. Hard copies can be sent to:

Linden, Brown Architecture, 2100 NW 19th Ave #2,  
Portland, OR 97209 USA

RE: INTERMEDIATE ARCHITECT

Specialists in both the design and implementation of significant architecture, we bring the creative and organizational expertise necessary to implement each project's shared vision.

L,BA is seeking an exceptional Intermediate Architect for immediate employment in a demanding and collaborative work environment. Considered applicants must have:

- BArch or March degree from an accredited university
- 5-7 years of professional work experience
- A wandering and critical design mind, with interests in dynamic spaces, connections to landscape, material qualities, craft and construction details
- Strong organization and communication skills
- Experience with consultant coordination
- Ability to work within and meet established deadlines
- Strong detailing and construction document experience with minimal supervision
- Familiarity working with various tools and medium including but not limited to: physical model building, 2D and 3D drawing and modeling (Vectorworks, Rhino, etc), rendering (Photoshop, Maxwell, Enscape, etc), and generating presentations (Adobe Creative Suite), etc.
- Residential design experience is a plus

Other details:

- Position available immediately following interview and selection process
- Competitive salary, medical and PTO benefits provided
- Please Submit a cover letter, detailed resume, work samples, and references to [info@lindenbrownarchitecture.com](mailto:info@lindenbrownarchitecture.com) and include “Intermediate Architect” in the email subject line. Hard copies can be sent to:
